

APPENDIX B: POPULATION PROJECTIONS WYONG SHIRE

Introduction

During 1998, Council engaged a demographer to prepare population projections for the Shire based on the 1996 Census. Council's previous projections were based on the 1991 Census and some of the assumptions originally used required updating. Staff provided the demographer with current residential land stock details together with assumptions for future medium density, major developments and other factors impacting population growth and composition for each social planning district.

The same demographer had previously been engaged by the Central Coast Health to prepare population projections to 2006 for both Gosford and Wyong Local Government Areas. The population projections were prepared using a technique called cohort components. This method takes into account the fact that the size of populations may change through fertility, mortality and migration.

Under these latest projections, the Shire's population is projected to grow from 120,296 persons in 1996 to 199,435 persons in the year 2021. The year 2021 was chosen to meet the requirements of preparing contribution plans. It will be necessary to monitor and review these projections on an ongoing basis.

The projections are broken down into Social Planning Districts to assist in the preparation of Contribution Plans and other local area planning exercises. Details of the projections are attached.

Please Note:

- 1 *These projections refer to previously used Social Planning Districts. A review of these catchment boundaries was undertaken following receipt of 2001 Census data with the following changes to district boundaries:*
 - ❑ *Amalgamation of the three northern districts (Lake Munmorah, Mannering Park and Gwandalan) into a single Northern Lakes District.*
 - ❑ *Splitting of the Gorokan district to accommodate the growing Warnervale/Wadalba release areas.*
 - ❑ *A combined San Remo/Budgewoi Area.*
- 2 *Following publication of the 2001 LGA population projections by DIPNR, an updated set of projections for Wyong Shire and each Social Planning District will be prepared.*

Wyong Shire Population Projections, 1996 to 2021
